

Water Treatment Unit Sizing

Complete this online questionnaire to size an ANHEL® water treatment unit. A manager will respond within one business day.

HOW TO COMPLETE THIS FORM

Fill in the form by hand or in a PDF reader. Tick the relevant boxes (☐ → ■). Where parameters are unknown, leave the line blank or write «to be determined». Return the completed form to info@anelspb.com — our engineering team replies within one business day with a sizing proposal.

* — required field.

STEP 01

Contacts

Who you are and which facility this is for

Contact details

Company*

Full name*

Position*

City*

Email*

Contact phone*

STEP 02

Source water and requirements

Raw and treated water parameters

Source water

Water supply source

Please attach a raw-water analysis report to the questionnaire

Raw water temperature (min, max) _____ °C

Treated-water quality requirements _____

Please attach the requirements or a reference to the applicable standard

Inlet flow rate at the supply network connection point _____ m³/h Inlet pressure at the supply network connection point _____ m H₂O

Inlet pump type (if any) _____

STEP 03

Flow and operating mode

Capacity and operating schedule

Treated-water flow demand

Daily flow _____ m³/day Peak hourly flow _____ m³/h

Water consumption schedule

Required to choose the optimal operating scheme

Number of shifts _____ Shift duration _____

Break between shifts (max) _____

Operating mode _____

Buffer storage and outlet head

Treated-water buffer storage required (tank capacity V) _____ m³

Existing treated-water tank capacity _____ m³ Required outlet head _____ m H₂O

STEP 04

Drainage and documentation

Backwash discharge and project documentation

Backwash water

Network for backwash discharge — available?

Composition limits	Volume limits
--------------------	---------------

Any quality restrictions on the discharged backwash water

Project documentation

Scope of project documentation to be supplied with the unit

Additional information

Attach any project drawings, water analyses or specifications as separate files when you reply.
