

Pressure-Maintenance Unit Sizing (Expansion Tank with Make-Up)

Complete the online questionnaire to size an ANHEL® pressure-maintenance unit (expansion tank with make-up). A manager will respond within one business day.

HOW TO COMPLETE THIS FORM

Fill in the form by hand or in a PDF reader. Tick the relevant boxes (☐ → ☒). Where parameters are unknown, leave the line blank or write «to be determined». Return the completed form to info@anhelspb.com — our engineering team replies within one business day with a sizing proposal.

* — required field.

STEP 01

Contacts and facility

Who you are and where the unit will operate

Contact details

Company *

Full name *

Position *

City *

Email *

Contact phone *

How did you hear about us?

How did you hear about us?

- ☐ Yandex / Google ads
- ☐ Yandex / Google search
- ☐ Social networks
- ☐ Recommendation from a colleague
- ☐ Already familiar, worked with us before
- ☐ Other

Please specify

General information

Facility name and location

STEP 02

System parameters

Capacity, volume, pressure

System thermal capacity

System thermal capacity _____ Gcal/h
 System thermal capacity _____ kW

Volume and pressure

System design volume _____ m³
 System static pressure _____ bar

Maximum working pressure _____ bar
 Safety valve set pressure _____ m H₂O

District-heating return line pressure _____ m H₂O

STEP 03

Heat carrier and operating mode

Medium type, temperature, pumps

Heat carrier type

☐ water
☐ glycol solution

Glycol concentration _____

System temperature schedule

supply T1 / return T2

T1 (supply) _____ °C
 T2 (return) _____ °C

Pumps and filling

Number of pumps

Filling system

- ☐ no
☐ yes
☐ yes, within 5 hours per MOEK requirement

STEP 04

System type and dimensions

Purpose and installation conditions

System type

- ☐ heating
☐ other
☐ ventilation

Please specify

Doorway size limit

Height × width for moving the unit through

Height _____ m Width _____ m
