

ANHEL® Service Request

Fill in the form and we will arrange the engineer visit. The dispatch decision is made after we receive the completed and stamped request.

HOW TO USE THIS FORM

Fill in the form by hand or in a PDF reader. After completing, sign, stamp and email to info@anelspb.com. The decision to dispatch a service engineer is made after we receive the completed and signed request.

STEP 01

Facility and request

Where the equipment is installed and under which document it was supplied.

Request number (product serial)

Company name

Facility name

Facility address

STEP 02

Equipment and documents

What is being serviced and under which document it was supplied.

Equipment type

Product name

Product serial number

Commissioning date

Invoice number and date

UPD number and date

Synteka request number

STEP 03

Contact person

Whom the service engineer will meet at the site.

Full name

Position

Mobile phone

STEP 04

Fault and acknowledgements

Describe the problem — the more detail, the better the engineer can prepare. Confirm the visit terms.

Detailed fault description

Video material can be attached to a follow-up email sent to info@anelspb.com.

- ☐ I undertake to provide an on-site representative authorised to sign the Service Protocol and apply the company stamp on the Work Completion Act.
- ☐ I undertake to ensure equipment readiness for diagnostics (access, power supply to the control cabinet, water supply and draw-off).
- ☐ I understand that the dispatch decision is made after the completed and stamped request is received.
- ☐ Consent to personal data processing (FZ-152).

Signature and stamp

Date

Photographs and short video material of the fault can be attached to the follow-up email.
